Nineteen Seventy 1

1971

ARGOS

VOL. 29

This year with enthusiastic coaching, experienced personnel and great team spirit the football team did an excellent job against tough opposition during the season. The team lost two close games against the number one team in state (14-13) and against the defending WISAA championship team (23-20). Though they were close, the "Fighting Squires" came out of the game on the short end of the score.

The team proved to the conference that they had what it needed to be a championship team. The Squires were rated to end up 5th in the conference during the season; but they proved that the sportswriters aren't right all the time by beating a strong Appleton Xavier team (14-12) and tying for 2nd in the conference. The team spirit proved to be the winning margin at times in close games.

The "Green Machine" compiled the best record (7 wins-2 losses) in the ten year history of APHS. They not only proved that they had it in them to win in clutch situations to the coaching staff but to themselves during the entire season.

With this in mind the yearbook staff is proud to dedicate the 1971 Argos to a football team that the sportswriters thought was destined to be only mediocre but with great determination to win they proved that they weren't just any team.

Again, congratulations to the entire football team for a fantastic season compiled with raw power and pure determination.

Now the challenge is set forth for future teams to meet and even break this record.

Science Club

The Science Club is a relatively new organization and not much is known about it. They do have projects to do. The biology section this year tested the pollution content of the Fox River. The Science Club goes out on field trips to widen their knowledge of the scientific world.

Camera Club

This year the Camera Club under the direction of Mr. John Weyers went into the darkroom and learned the techniques of picture developing. They had a project to do to consist of twelve pictures of everyday life and things pertaining to it.

BUTCH THOMPSON:
Layout Editor

No one really knows how much work and time it takes to put a yearbook together until they are on the staff of one.

This year's book went through many trying moments until it was finished.

I would sincerely like to thank our understanding advisor, Mr. John Weyers, for putting up with all the goofing off the yearbook staff did this year. I would also like to thank Fr. Feldman for the chance he gave us for putting out this book.

The staff is a real essential part to a yearbook and without them this book still wouldn't be finished, so thank you very much staff members of the 1971 Argos for all the work you have done for me.

I would also like to thank all the patrons who bought ads in the 1971 Argos for their economic help to make this yearbook a reality.

This book was extremely fun to work on and I don't think I would have missed it for anything.

Again, thank you to all who were affiliated with this yearbook.
